

"I found your medicine a blessing to me and my family."

There are women who feel something like a grudge against the children, who, one after another rob their mother of her beauty and strength. Men do not usually realize how much the mother gives to each child to her own loss. Women accept it as part of the obligation of Nature and pay the debt grudgingly. Yet in Nature's plan every child is a new joy and fresh happiness. It isn't the children that steal the mother's strength. It is the unnatural drains and pains which weaken her.

Every woman who has used Dr. Pierce's Favorite Prescription has found in it the one thing woman has waited for. It stops the drains, heals inflammation and ulceration, makes the baby's advent a pleasure and his life a blessing. No opium or narcotics are contained in "Favorite Prescription."

"I read what your medicine had done for other people," writes Mrs. Edwin H. Gardner, Box 70, Beechwood, Norfolk, Co., Mass., "so I thought I would try it, and I found that it was a blessing to me and my family. I began in June and took six bottles of your medicine, and three vials of 'Pellets.' I took your medicine a year when I had a ten pound girl. I had the colic time ever had with any of my children. I have been very well since. I took three bottles of 'Favorite Prescription' and three vials of 'Pellets.' I had no appetite and could not eat much without it distressing me. Before I took the medicine I only weighed 135 pounds, and now I weigh 175." Dr. Pierce's Pleasant Pellets clear the brain by cleansing the body of the corruption which clouds it.

FIRST WEEK OF SCHOOL.

The first week of school is over. The teacher has made the acquaintance of all new scholars; has assigned his classes and is ready for business.

The scholar has had his seat assigned, has secured all the necessary books, etc., and to all appearances is also ready for business. But is he? Can he or she study all their lessons either at school or at night at home without that dull headache just above the eyes, and sometimes in the back part of the head; that nervous, disagreeable feeling, as if they wanted to tear up the books and get away from school entirely? Astigmatism will cause just such trouble. Astigmatism is the condition of the eye in which the cornea is not symmetrically spherical. Instead of the projecting and visible portion of the eyeball having a surface like that of a glass marble, it may resemble that of a spoon, where the curvature in one way differs from that in another way, and the rays of light will consequently meet at different focuses. With an eye thus formed, the lines are seen much more clearly in one direction than in another. For instance the figures on the clock dial will be of different degrees of visibility. The horizontal symbols for nine and three may be clearly seen, while the perpendicular symbols for six and twelve may be indistinct or invisible? Astigmatism may occur in any eye—the otherwise normal eye, the near-sighted eye, the far-sighted eye, and if not remedied by glasses the strain will result in further impairment of vision. You can have your eyes tested free of charge.

H. P. Lorbach, scientific optician, at the Norwood Hotel, until Saturday, students. The number of fees upon 1:20 to 4:30 P. M.; makes no charge for consultation and examination. Dan Spangler, operator at the B. & O. freight, says:

Marietta, O., Sept. 3, 1901.

This is to certify that on April 11, 1901, I had severe eye trouble, a curtain sometimes seemed to be pulled down over the sight of my left eye, which for the time being would destroy the sight of it. I went to Dr. H. P. Lorbach, scientific optician, at the Norwood Hotel, and after a most thorough examination of my eyes, found that I had detachment of the retina, a piece of which having broken loose, was floating in the vitreous humor, causing the curtain effect, and was due to severe eye trouble. As I had a very high degree of myopia, astigmatism, which he corrected by the proper glasses, which I have worn almost constantly since and have given me entire relief and perfect satisfaction. I certainly can recommend the doctor to any one needing a competent man in his profession.

GASTRITIS.

Caused by Some Irritant Acting Upon the Mucous Membrane of the Stomach.

Inflammation of the stomach, gastric catarrh of gastritis, as this unpleasant affliction is variously called, may, like most inflammatory diseases, be acute or chronic in its course. The symptoms of gastritis are more or less fever, weak pulse, loss of appetite, coated tongue, foul breath, bad taste in the mouth, the head aches dully. There is a sensation of weight or distress in the stomach. Gastritis is caused by some irritant acting on the mucous membrane of the stomach, the irritant is often formed in the stomach by fermentation of indigestible food. Gastritis will never develop if you take regularly Dr. Caldwell's Syrup Pepsin, the guaranteed cure for indigestion, constipation and all diseases arising from stomach troubles. Dr. Caldwell's Syrup Pepsin is an all the year round medicine. Good for the whole family from the smallest infant up. It is the best life insurance. Sold by Curtis & Hutchinson, and Charles R. Buchanan. 50c and \$1.00 bottles.

MARKET

Lapsed into Dullness and Heaviness.

By Associated Press.

New York, Sept. 11.—Organized protection of the market by a concert of financial powers is still in evidence today. There was much realizing on all advances by this element of holders, required Saturday and early this week in furtherance of the purpose to support the market. This realizing was accomplished probably on the demand from uncovered shorts as there was no evidence of outside interest in the market. The purpose to protect the market by combined capitalists has not changed, apparently, but the same effort is shown to advance prices or invite speculation.

The lapse of the market into dullness and heaviness shown today can probably be adequately accounted for on these grounds.

The contradiction of last night's rumors of a steel strike settlement resulted in the reaction of United States Steel Stocks.

There were significant advances in bid prices of Government Bonds on call, which carried the prices of all government issues, except four, 1/4 to one half per cent over prices ruling before the secretary's order. Railroad bonds were dull and irregular.

Combination Orders.

One of our specialties in mining stocks is Combination orders. The purchaser dividing his investment among the several mining companies we handle, as, by so doing, we can, in most cases, effect a saving of 10 per cent. on cost of stocks separately.

By this method the maximum of profit is secured, and there can be no possibility of loss on combination of well selected mining stocks in working properties. Full information for the asking.
